

100FP/S & 100FPHL/S ARTICULATING KEYBOARD INSTALLATION INSTRUCTIONS

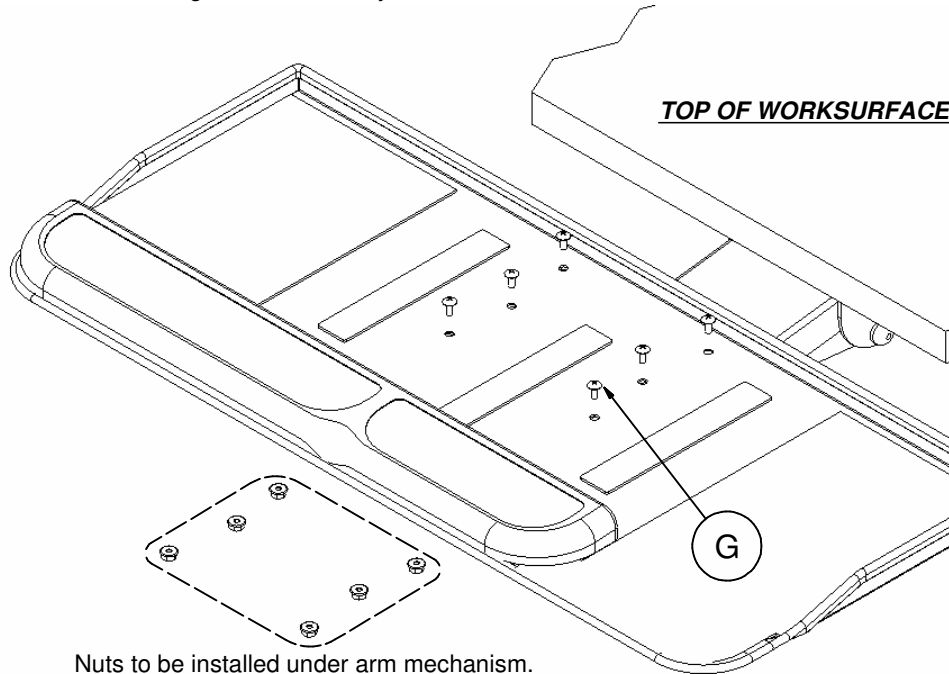

STEP 2: Slide (D) Arm Mechanism into the grooves of the (A) Track.

STEP 3: Insert the (E) Track Stop into place with two (F) fasteners, going through the Track and into the Track Stop.

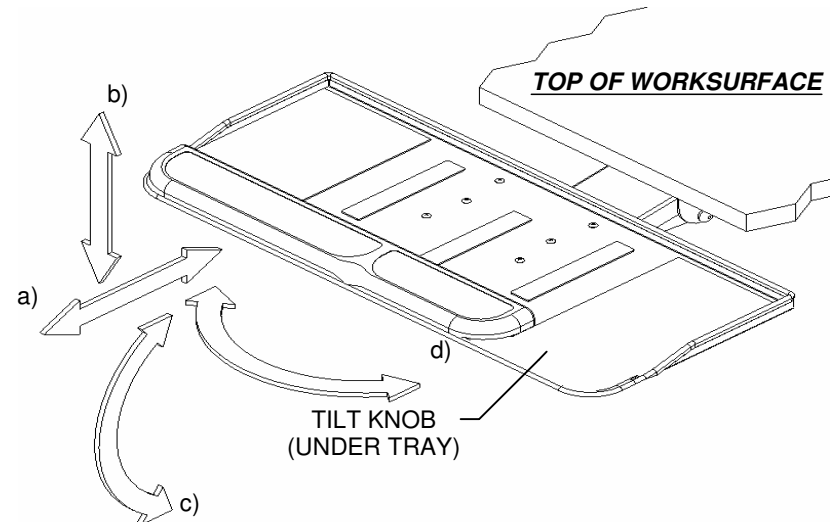

STEP 4: Place (C) Keyboard Tray onto (D) Arm Mechanism and align with holes on arm mechanism then fasten with (G) #8-32 X 3/8" Th Ph Ms (Black/OX) and (H) #8-32 Serr Fl Nut (Zinc) then tighten with Wrench and #2 Phillips Head Bit. (J) Cord "D" Clips (not shown) are used for cord management for the keyboard and mouse cords under worksurface.

STEP 5: Installation is finished. To operate the system:

- a) Push in/pull out the Keyboard Tray.
- b) For height adjustment lift and tilt back of keyboard tray down or pull up to adjust height: release to lock in place.
- c) For tilt adjustment, turn the tilt knob on the right side of the arm mechanism, position the keyboard tray to an angle between +10 or -15 degrees.
- d) The Arm Mechanism will also swivel to the left or right with a moderate push to the side.
